

## 2016 HUGS International Fellowship for Graduate Students in Developing Countries

**EXTENDED deadline for application is January 25<sup>th</sup>, 2016.**

We are proud to announce the 2016 HUGS International Fellowship for Graduate Students in Developing Countries supported by the United States Department of Energy (DOE) and Jefferson Science Associates (JSA). This fellowship will fully support up to 2 graduate students from developing countries to participate in the 31<sup>st</sup> annual Hampton University Graduate Studies (HUGS) Program at Jefferson Lab, plus an additional stay of 1 or 2 weeks, depending on funding, to meet with Jefferson Lab researchers and users, and to initiate or strengthen a research collaboration. This competitive fellowship will support students who are well into their PhD dissertation research project, and will cover travel expenses (including international airfare), room, and board.

The 2016 HUGS school, that runs from May 29<sup>th</sup> to June 18<sup>th</sup>, 2016, is a summer school designed for experimental and theoretical nuclear and particle physics graduate students who have finished their coursework and have at least one year of research experience in these fields. Students will receive excellent insight into the physics to be studied at Jefferson Lab in the upcoming years, as well as related topics of interest in nuclear and particle physics. In addition to the main lectures, the school will offer topical seminars by Jefferson Lab researchers. At the end of the school, and as an integral part of it, students will have the opportunity to present a short seminar on their current research.

Information on past editions of the school can be found at <https://www.jlab.org/hugs>; the program of HUGS 2016 will be announced in January or February. For more information on Jefferson Lab research programs, please visit <http://www.jlab.org>.

To apply, send an e-mail to Prof. Alberto Accardi, School Director, at [accardi@jlab.org](mailto:accardi@jlab.org) with a resume and a motivation letter discussing research interests and financial need. Please, arrange for two recommendation letters to be sent to the same address directly by the recommenders. One of the letters should be written by the student's thesis advisor. **Applications received by January 25<sup>th</sup>, 2016 will receive full consideration.** The applicants will be notified of the results by January 30<sup>th</sup>, 2016.

You are welcome to forward all inquiries to:
